PERSON SPECIFICATION			
Requirements	Where identified*	Essential	Desirable
QUALIFICATIONS			
Level 6 qualification (Degree) in Civil Engineering, Geology, Chemistry or other appropriate discipline, or Level 4 qualification (HNC) with Professional Registration (see below)	A	✓	
Registered Engineering Technician (EngTech) Status of an appropriate institution achieved through independent review or test	A/I		✓
LCC Highways Working Safely Certificate (can be attained in post)	A/I	✓	
Appropriate certification through the Construction Skills Certification Scheme (CSCS)	A/I	✓	
KNOWLEDGE			
Good knowledge and experience of Construction Materials Engineering,	A/I	✓	

including regional and national sources of materials, engineering characteristics and performance requirements.			
Good knowledge and experience of Pavement Investigation including Highway Condition Assessment, Data collection & interpretation, and Asset Management	A/I	✓	
Knowledge and experience at consultant level of Geotechnical Engineering and Design Ground Investigation specification, procurement and supervision and laboratory testing techniques	A/I		✓
Good knowledge and experience of Laboratory Testing Techniques	A/I	✓	
Good knowledge and experience of relevant construction methods and processes	A/I	✓	
Knowledge of relevant British and European Standards and Codes of Practice and ability to develop specifications and codes of practice	A/I	✓	
Knowledge and understanding of Health and Safety legislation and requirements associated with scope of activities including a working knowledge of the CDM regulations	A/I	✓	
<b>EXPERIENCE</b>			
3 years' experience post-qualification in the industry including as relevant;  Pavement Engineering and design  Materials Engineering including testing of materials and workmanship  Geotechnical Engineering and design (as appropriate to role)	A/I	✓	
Good report writing and numeracy skills and the ability to perform technical and interpretative analysis on the results of laboratory and site tests	A/I	✓	
IT skills including practical knowledge of standard word processing, spreadsheet and database systems and ability to use specialist software systems e.g. GIS	A/I	✓	
Organisational, interpersonal commensurate managing a variety of projects, tasks and processes	A/I	✓	
Knowledge of LCC and Laboratory administrative and financial procedures	A/I		✓

Commercial awareness and financial management skills (including estimating, tendering for work, budgets for income/ expenditure and monitoring financial performance)	A/I		✓
Ability to mentor other staff on detailed professional and technical matters.	A/I	✓	
The postholder will be required to have the ability to travel around the county and keep appointments. This may involve attending meetings at short notice.	A/I	✓	
The post holder may be required to obtain samples from trial pits, stock piles etc. and log borehole samples involving some lifting etc. (up to 25kg)	A/I		✓
The post holder will be required to regularly undertake site inspections on live highway sites around the county including some lone working. Visits to site may involve exposure to inclement weather, noise and traffic.	A/I	✓	

\*A = Application form      T = Test/Assessment      I = Interview      P = Presentation

## GENERAL

The postholder is required to take personal responsibility for contributing to organisational transformation and changes in ways of working, maximising the benefits and efficiencies for both internal and external customers, including the promotion and use of self-service to achieve maximum cost effectiveness.
